

# Spotlight on ... Kim Da Costa

I have been fascinated with cake decorating since I can remember seeing my very first decorated cake at the Sydney Royal Easter Show here in Australia as a little girl.

Finally in September 2009 my girlfriends Sue and Briony and I finally enrolled ourselves in a community college 2 day cake decorating workshop. Cake decorating has now become all our passions and it is so much fun bonding and scrutinising over books and internet sites together. It is wonderful seeing what other people around the world are doing with cakes and icing.

We all enjoy your magazine and look forward to every month's edition to see what other people are up to. Cake decorating is like a sweet addiction, once you start you just can't seem to stop!
